TIPS ON TIPPING

When traveling, we often receive services from people who make our experiences just a little bit better. These are the people who share their skills, personality, knowledge and positive attitudes to make our travels just a little safer, a little more convenient, a little more interesting and bit less stressful! Think about how your bus driver carefully changes lanes on the turnpike while you are napping so you can be well rested at your next destination. What about the tour guide who is more like an entertainer than a college professor? How about the hotel housekeeping staff who respects your belongings and insures that you have plenty of supplies like soaps, toilet tissue and towels? Or the waitress who remembers to serve your salad dressing on the side or the taxi driver who carries your groceries to the door or takes care to take the shortest route to your destination. These people are all in the service industry and a "tip" is a thank you for the extra things that they do. A small token of appreciation for their smile, attention to detail, positive attitude and consideration for YOU. We are often asked "How much should we tip the driver? The typical bus driver tip is about \$2 per person/ per day. This is a small token of thanks to the person who has taken responsibility for safely and comfortably transporting you to your destination, dropping you off at the door and carefully unloading your luggage. Tips are not included in any Fun Bus pricing because we believe that our passengers will be impressed with the level of service that they receive and will show how much they are impressed in the form of a small gratuity. How impressive was your Fun Bus driver today??
